Section 2. No owner of land located within the District shall be eligible to become a water subscriber unless he has first subscribed and paid for one or more Benefit Units. Tenants occupying land located within the District may become water subscribers: Provided, that the owner, or someone on behalf of the owner, has subscribed and paid for one or more Benefit Units in favor of the land the tenant is occupying.

ARTICLE 5

RIGHT TO VOTE

Section 1. Only participating members shall have the right to vote, and each participating member shall be entitled to a single vote, regardless of the number of Benefit Units to which he may have subscribed: Provided, all owners of land located within the District shall be eligible to vote at meetings of landowners until ninety (90) days after a declaration of availability of Benefit Units and unit fees has been entered by the Board in its minutes. There shall be no proxy voting, and no dual ownership of Benefit Units for voting purposes. A participating member may be an individual, firm, partnership, association, or corporation.

Participating members shall be:

- (a) Owners of land located within the District who have

subscribed to one or more Benefit Units: Provided, payments of charges are current on at least one of the Benefit Units.

ARTICLE 6

BENEFIT UNITS

Section 1. The Board shall at the proper time cause a declaration of availability of Benefit Units for subscription to be entered in its minutes and shall establish a unit price for said subscriptions. Each Benefit Unit shall carry with it the obligation of paying a minimum monthly meter charge from the time service is available. The Board in its discretion may from time to time, if the capacity of the District's facilities permit, make additional Benefit Units available. Subscription for Benefit Units shall be given preference and priority in order in which received. The Board may refuse the subscription for a Benefit Unit in favor of a particular tract of land located within the District, or impose special conditions on granting the same if in the judgment of the Board, the granting of said subscription and the furnishing of water pursuant thereto, would impair the service to other water users in that locality or be uneconomical, unfeasible and place an undue burden on the District. Any landowner who feels himself aggrieved by such denial, or imposition of special conditions, may appeal from the action of the Board to a vote of the members at the next regular meeting of the members, or a special meeting of the members called for such purpose: Provided, the decision of the Board shall stand, unless $\frac{3}{4}$ ^{ths} of all participating members (or landowners at meetings where only qualification to vote is ownership of land within the District), vote in favor of a motion to overrule the decision of the Board.

Section 2. Upon the purchase of Benefit Units, the owners of land shall designate the tract of land to which the Benefit Units shall be assigned, and the Benefit Unit shall not be transferred from one tract of land to another within the District, without the approval of the Board. The owner of lands subscribing for more than one Benefit Unit to be assigned to one tract of land shall at the time of said subscription designate as nearly as practical the location on said tract where he intends to utilize said Benefit Units and no major change in location shall be made without the approval of the Board. Benefit Unit Certificates shall be issued by the Board, signed by the Chairman and Secretary, showing name of owner, and tract of land to which the Benefit Unit is assigned, numbered consecutively in order in which issued.

Section 3. The consideration for Benefit Units shall be considered donations to the District and shall not be refunded to subscribers, provided that the Board may authorize the refund of all or a part of each consideration, if through no fault of the subscriber the District is unable to supply water to the unit.

Section 4. Benefit Units shall follow the title of the land unless the owner of the land designates otherwise. Owners may transfer Benefit Units from one tract of land to another tract owned by them within the District, subject however, to the approval of the Board. No transfer in ownership of Benefit Units shall be permitted without the approval of the Board. No transfer will be approved unless all charges against the Benefit Unit are paid. All transfers when approved shall be recorded in the books of the District.

Section 5. Each Benefit Unit shall entitle the owner to not to exceed one line from the District's water system. Each line shall serve not to exceed one residence or business establishment together with the necessary and usual outbuildings.

Section 6. Failure to pay the minimum monthly meter charge, or failure to pay for water used through a meter, shall constitute a forfeiture of the Benefit Unit on behalf of which such failure occurs: Provided, that such Benefit Unit shall be reinstated if within three months after such failure all back charges are paid in full, plus ten per cent (10%) interest, and reasonable labor charges necessary to effect such reconnection: Provided, further, that the Board may permit such reinstatement within six months after such failure upon payment of all back charges, plus ten percent (10%) interest, and reasonable labor charges necessary to effect such reconnection.

Section 7. Water service may be terminated for failure to make payments when due as stated in Section 6 hereof or for willful violations of the rules and regulations of the District. Before terminating water service, the board shall notify the water subscriber and the benefit unit holder, if different from the subscriber, of the determination of the board that there has been a failure to pay for water service or willful violations of the rules and regulations of the district, and that water service shall be terminated and the benefit unit shall be forfeited.

Such notice shall:

- (a) Be sent by certified mail to the last known address of the subscriber and the benefit unit holder;

- (b) Contain a statement of the determination of the board and the specific reasons therefor;
- (c) Contain a statement substantially as follows:
Upon your request within 20 days, you will be notified the time and place of a hearing before the board at which hearing you may present evidence as to why such water service should not be terminated and present objections to water bills said to be unpaid, or to any determinations of the board given as reasons for the termination of water service. Upon receiving such request, the board shall notify the interested parties of the time and place of hearing. At such hearing, the water subscriber and land owner may appear in person and may be represented by counsel. The board shall provide for a written summary of the proceedings at such hearing. Written notice of the board's determination shall be served upon all parties by certified mail within 10 days after such hearing.

ARTICLE 7

RURAL WATER DISTRICT NO.1
WABAUNSEE COUNTY, KANSAS

RULES AND REGULATIONS
Revised and Updated
Through March 1993

These Rules are issued in compliance with Section 82a, 612 et seq., Kansas Statutes Annotated, as amended, and the By-Laws of the District and are designed to govern the supplying and taking of water service in a uniform manner for the benefit of the District and its members. They are subject to change from time to time. However, all such changes must be approved by the District Director of the Farmers Home Administration, until such time as the District is no longer indebted to the United States of America. If a provision of these Rules shall be declared invalid by competent authority, such voidance shall not affect the validity of the remaining portions.

DEFINITIONS: The following expressions when used herein will have the meaning stated below:

APPLICANT: Any individual, firm, partnership, corporation or other agency owning land located within the District applying for water service.

BENEFIT UNIT: A right entitling the holder to one water service.

BOARD: The Board of Directors of Rural Water District NO.1, Wabaunsee County, Kansas.

CONSUMER: Any individual, firm, partnership, corporation or other agency receiving water from the District's facilities and owning or occupying land located within the District in favor of which one or more benefit units have been subscribed and paid for.

POINT OF DELIVERY: The point of delivery shall be at the meter, unless otherwise specified in the application for Water Service and Water Users' Agreement.

SERVICE: The term service when used in connection with the supplying of water shall mean the availability for use by the consumers of water adequate to meet the consumer's domestic requirements. Service shall be considered as available when the District maintains the water supply at normal pressure at the point of delivery, in readiness for the consumer's use, regardless of whether or not the consumer makes use of it.

APPLICATION FOR WATER SERVICE AND WATER USERS' AGREEMENT: The

agreement of contract between the consumer and the District, pursuant to which water service is supplied and accepted.

STATE DIRECTOR: The State Director of the Farmers Home Administration.

WATER SERVICE: A water service shall consist of facilities for supplying water to one residence or business establishment located on land within the District. A landowner must purchase a benefit unit and accept a water service for each residence or business establishment served.

GENERAL RULES

1. The supplying and taking of water will be in conformance with these Rules and the applicable rate schedule attached hereto, and filed with the Chief Engineer of the Division of Water Resources and the Secretary of the District: Provided, however, that such rate schedule is subject to change by action of the Board with the approval of the State Director: Provided, further, that if at any time the Board of Directors determines that the total amount derived from the collection of charges is insufficient for the payment of operating costs, emergency repairs, debt service, and a reasonable reserve, the Board shall increase the minimum water rate for the first month thereafter in an amount sufficient to pay such operating costs, emergency repairs, debt service, and to accumulate reasonable reserves.

2. Applicants for service shall make application to the Secretary of the District. If the application for service is approved by the Board of Directors, the applicant will purchase a benefit unit for each water service desired, and sign the standard Application for Water Service and Water Users' Agreement for an indefinite period.

3. Before installing a service extension and providing water available for use, the Board may require the applicant to pipe his home and be in readiness to accept service.

Service is for Sole Use of the Consumer:

A standard water service connection is for the sole use of the applicant or the consumer, and does not permit the extension of pipes to transfer water from one property to another, nor to share, resell, or sub-meter water to any other consumer. If an emergency or specific situation should make such an arrangement advisable, it shall be done only on specific written permission of the Board of Directors for the duration of the emergency.

Agreements with Governmental and Public Bodies:

The District, through its Board of Directors, may make specific water service contracts with governmental units, school districts, municipal corporations, multiple housing facilities including mobile home and trailer courts servicing residential users, and other commercial users. These commercial users will not include farms with family-size operations. Such commercial users will pay a hook-up charge, which shall be the cost of an increase in the capacity of a system to serve such users. Such commercial users will pay a special commercial rate for water used. This water rate will be based on the cost of the production of water and may differ from the water rate charged to regular water users. Such contracts must receive the consent of the State Director of the Farmers Home Administration.

Right of Access:

Representatives of the District shall have the right at all reasonable hours to enter upon consumers' premises to test control valves, inspect piping, and to perform other duties for the proper maintenance and operation of service or to remove its equipment and shut off water upon discontinuance of service by consumers.

Continuity of Service:

The District will make all reasonable efforts to supply continuous, uninterrupted service. However, it shall have the right to interrupt service for the purpose of making repairs, connections, extension, or for other necessary work. Efforts will be made to notify consumers who may be affected by such interruptions, but the District will not accept responsibility for losses which might occur due to such interruptions. The District does not accept responsibility for losses which might occur due to interruptions to service caused by storms, strikes, floods, or other causes beyond its control.

CONTROL EQUIPMENT

Meters will be furnished, installed, owned, inspected, tested and kept in proper operating condition by the District, without cost to the consumer. A complete record of tests and histories of meters will be kept. Meter tests will be made according to methods of the American Waterworks Association by the District, as often as deemed necessary by its Board of Directors.

Meter Accuracy:

Meters will be checked periodically at the direction of the Board of Directors. Flow control valves will not be used. Service Meters whose errors do not exceed two percent (2%) fast or slow shall

be considered as being within the allowable limits of accuracy for billing purposes. The percentage of error will be considered as that arrived at by taking the average of the error at full load and that at ten percent (10%) load, unless a consumer's rate of usage is known to be practically constant in which case the error at such constant use will be used.

Meter Locations:

Meters will be set in meter wells at or near the users' property line. Float valves when used will be installed at the consumer's storage facility. Meters shall be set in an accessible place outside buildings except where otherwise directed by the District. All meters shall be set horizontally and never connected into a vertical pipe. Meters set outside of a building shall be placed in a meter box furnished and installed by the District.

Bills:

Meters will be read for the District by (a) person(s) under contract with the District for this purpose and certified by the Board of Directors to be well qualified and reliable. Meters will be read on or about the last day of each month. Bills will be prepared and will be mailed on or about 10th day of the month or the first working day thereafter and are due and payable without penalty by the first working day after the 4th day of the following month and are considered past due one day thereafter.

The bill for any water subscriber that is determined to be over thirty (30) days past due will be accompanied by a notice as outlined in Article 6, Section 7 of the By-Laws. In the event that the water subscriber and the Benefit Unit holder are different, the Benefit Unit holder will also be sent the notice by mail.

Water service termination and reinstatement of Benefit units will be as determined by the Board of Directors as guided by Article 6, Sections 6 and 7 of the By-Laws.

Protesting of bills shall be permitted only within fifteen (15) days of the billing date. If no protest is made within that period, all charges shall stand as billed without exception. No amount in arrears may be protested.

An additional charge of twenty-five Dollars (\$25.00) will be added for any check returned from the bank for any reason. Also, the procedure prescribed by the Office of the Wabaunsee County Attorney for collection of such returned checks will be followed: i.e. the maker of the check will be notified by certified mail, return receipt requested, using the format for the letter as prescribed by the Wabaunsee County Attorney. Payment by Money Order, Certified Check or Cashiers' Check may be requested. Further, the Board may require payment of subsequent bills by Money Order, certified Check or

Cashiers' Check in cases of repeat offenders. Cash payment, of course, is always acceptable.

Reconnection Charges:

The reconnection charge for restoration of service, if reconnection is authorized and approved under the provisions of the By-Laws of the District, after each suspension of service because of delinquent payment or for other infraction of these Rules, shall be the unpaid amount charged to date against the consumer's benefit unit, plus 10 percent (10%) penalty, and the sum of One Hundred and Fifty Dollars (\$150.00) to cover the cost of labor and transportation necessary to make such reconnection.

Requested Meter Tests:

Meter tests requested by consumers will be performed without cost to the consumer if the meter is found to be in excess of two percent (2%) slow or fast. Otherwise the consumer for whom the requested test was made will be charged for the cost of making the test.

Consumer's Responsibility:

The consumer shall be responsible for any damage to service equipment installed by the District for his service, on account of any cause other than normal wear and tear.

Change of Occupancy:

It shall be the consumer's responsibility to anticipate changes of occupancy, and to have his benefit unit and additional water supply unites) transferred to the new consumer as prescribed in the By-Laws. Until the benefit unit is formally transferred, the original holder shall be responsible for payment for service. All charges levied against a benefit unit must be paid, before benefit unit can be transferred, or service resumed where there has been a suspension.

Main Extensions:

In extending a water main to serve an applicant, the Board may at its discretion exercise one of the following options:

(a) If the cost of the extension is less than the average cost of the entire system to each member, and sufficient construction funds are available, the Board may elect to make the extension upon the applicant's purchase of a benefit unit.

(b) If the cost of the extension is greater than the average cost of the entire system to each member, but funds are available to the extent of such average cost, the Board may elect to contribute to the extension in the amount of such average cost, and require the applicant to deposit in cash the additional cost in

addition to the price of a benefit unit. If and as additional consumers are connected to the extension, and as funds become available, all or part of the original consumer's deposit may be returned to him. Any portion of the original deposit remaining after the expiration of a five-year period will become the property of the District. In no case will interest be paid on such deposits.

(c) In the event that the District does not have funds available to pay for construction in the amount of the average cost per member of the entire system, it may require as a condition of extending service, that the applicant deposit in addition to the price of a benefit unit, an amount which may equal the entire cost of the extension. In such an event, the Board may, as funds become available, return to the consumer that portion of his deposit equal to the average cost of the system per member. No interest will be paid on such deposits.

Services:

The district will install and pay for all water services pipes (except for private fire protection) from its mains to the meter on pressure lines and to the float valve at the owner's reservoir for constant flow lines. The service line for meters shall not be less than $\frac{3}{4}$ inch in size. The District will also install and pay for the District dock, meter, meter setting for pressure lines and will pay for the flow control valve, strainer, float valve and insulated valve box on constant flow lines. The meter or constant flow valves will be set in front of the premises to be served or at the closest point on the consumer's premises designated by the District.

Applicants Having Excessive Requirements:
